Dear Sirs:

WASTE DISCHARGE REQUIREMENTS – AMERICAN REMEDIAL TECHNOLOGIES, INC., LYNWOOD, CA, FILE NO. 95-029; THERMAL REMEDIATION SOLUTIONS, LLC, IRWINDALE, CA, FILE NO. 94-080

Reference is made to our letter dated January 30, 2004 transmitting tentative waste discharge requirements (WDRs) for the thermal desorption remediation facilities operated by American Remedial Technologies, Inc. (ART) and Thermal Remediation Solutions, LLC (TRS). Because of comments received from ART, TRS and interested parties concerning these tentative WDRs, Regional Board staff have prepared responses to these comments and have also prepared revised tentative WDRs to reflect the comments received.

Attached for your use is a copy of Regional Board staff's response to comments received, and revised tentative WDRs (deletions are in a strikeout text and additions are in bold text). We are sending a copy of the response to comments and revised tentative requirements only to the addressees. For recipients on the mailing list, an electronic copy is available at http://www.swrcb.ca.gov/rwqcb4/html/permits/all_tentative_permits.html. A hard copy of these attachments can be furnished upon request.

If you have any questions, please call Enrique Casas at (213) 620-2299 or Douglas Cross at (213) 620-2246.
